INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Baldwin-Whitehall School District
4900 Curry Road
Pittsburgh, Pennsylvania 15236

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Baldwin-Whitehall School District, as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Baldwin-Whitehall School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Baldwin-Whitehall School District, as of June 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 25, 2012, on our consideration of the Baldwin-Whitehall School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages i through xi be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required

supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Baldwin-Whitehall School District's financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

JUNE 30, 2012

Required Supplementary Information (RSI)

The discussion and analysis of Baldwin-Whitehall School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2012. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999.

FINANCIAL HIGHLIGHTS

As a result of the passage of Act 72 of 2004 by the Pennsylvania State Legislature, school districts were forced to complete their Preliminary Budget by February 15 of each year. Revenue and expense estimates had to be projected months earlier than was customary using much less factual information. Raising the real estate tax rate was now based on an index furnished by the State and the ability to qualify for certain specific exemptions. The future ramifications of raising or not raising the rate had to be considered because the index each year would be tied to the millage rate in effect the previous year. A significant change that occurred with the passage of Act 1 which replaced Act 72 was that school districts may now elect to pass a referendum 110 days prior to the next primary election of each year notifying the Pennsylvania Department of Education that they do not intend to raise the real estate tax millage beyond the level of the state mandated index which is provided to each District every year by the Department. This resolution allows districts to revert to the former budget schedule of passing a preliminary budget by May 30 and a final budget by June 30.

- Total assets of the District exceeded its liabilities at the close of the most recent year by \$26,250,813 (net assets). Of this amount, \$15,427,426 (unrestricted net assets) may be used to meet the government's ongoing obligations to its citizens and creditors.
- The District's total net assets increased from 2011 by \$325,168 or 1.2%.
- Unrestricted net assets increased by \$3,085,766 in 2012.
- Net assets invested in capital assets, net of related debt were \$7,889,545 at June 30, 2012, a decrease of \$2,321,992.
- The District's real property tax rate remained constant at 23.40 mills.
- At June 30, 2012, the District had \$72,560,000 of debt outstanding. This represents a decrease of \$4,305,000 or 5.9% from the previous year.
- The total fund balance of the General Fund at June 30, 2012 was \$12.405 million of which \$4.8 million was unassigned.
- The District continues to maintain a strong investment grade bond rating of Aa3 from Moody's Investors Service for all related bond issuances and activities.

USING THE ANNUAL FINANCIAL AUDIT REPORT

The annual financial audit report consists of the Management's Discussion and Analysis (this section) and a series of financial statements and notes to those statements. The statements are organized so that the reader can understand Baldwin-Whitehall School District as an entire operating entity.

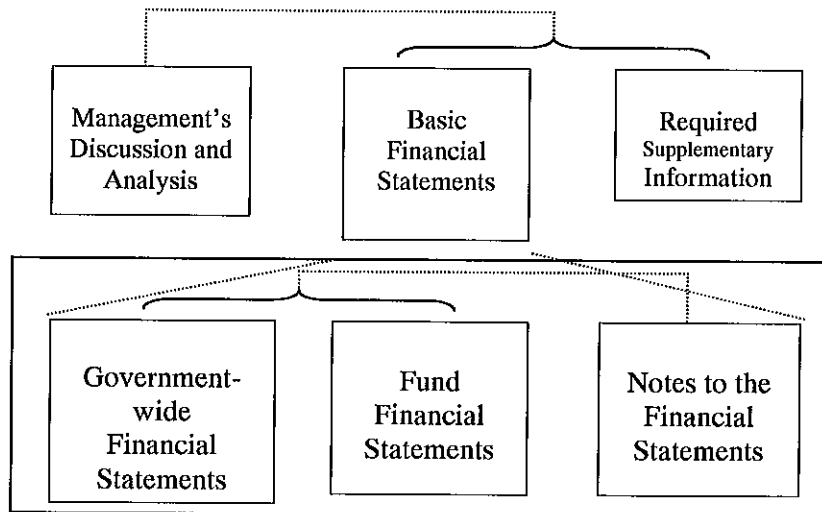

The first two statements are government-wide financial statements – the Statement of Net Assets and the Statement of Activities. These provide both long-term and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the District's operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short- and long-term financial information about the activities that the District operates as a private enterprise. For Baldwin-Whitehall this is the Food Service Fund. Fiduciary fund or Agency fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others to whom the resources in question belong. For Baldwin-Whitehall these are the Student Activity Funds.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

JUNE 30, 2012

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, the reader needs to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- **Governmental activities** – All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business type activities** – The District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements, which begin on Page 5, provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

BALDWIN-WHITEHALL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
JUNE 30, 2012

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector, or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District’s proprietary fund and is the same as the business-type activities reported in the government-wide statements, but provides more detail and additional information, such as cash flows.

Fiduciary funds - The District is the trustee, or fiduciary, for the Activity Funds. The District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets on Page 12. These activities are excluded from the District's other financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's total net assets were \$26,250,813 at June 30, 2012.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

JUNE 30, 2012

Most of the District's net assets are invested in capital assets (buildings, land, and equipment). The remaining unrestricted net assets are combined as designated and undesignated amounts. The designated balances are amounts set aside to fund future purchases or capital projects as planned by the District.

The results of this year's operations as a whole are reported in the Statement of Activities on Page 4. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

Table A-2 takes the information from that Statement, rearranges it slightly, so you can see our total revenues for the year.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

JUNE 30, 2012

The Statement of Revenues, Expenses and Changes in Fund Net Assets for this proprietary fund will further detail the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2012, the District governmental funds reported a combined total fund balance of \$15,338,892 which is a decrease of \$1,409,263.

General Fund Budget

During the fiscal year, the Board authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District in accordance with state law. Transfers between specific categories of expenditures/financing uses occur during the year. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided on Page 13.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2012, the District had \$79,805,154 invested in a broad range of capital assets, including land, buildings and furniture and equipment.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

JUNE 30, 2012

FUTURE IMPLICATIONS

Budgeting in fiscal 2012-13 brought significant challenges as legislation has curtailed school boards' ability to levy taxes. Act 1 of 2006 limits the ability of school boards to raise millage rates above an inflationary index without asking the community to approve that budget via a voting referendum. In addition, funding requirements for school districts has been very challenging with the required increases to employer retirement contributions. The refunding of the Series 2005 General Obligation Bonds resulted in a favorable budget variance which was utilized to assist in balancing the 2012-13 adopted budget. The 2012-13 budget will utilize approximately \$1,359,864 from the fund balance in addition to the refunding savings to create a balanced budget of \$ 59,744,709 and the real estate millage remained at 23.4 mills for the 2012-13 fiscal year.

TO THE STATEMENT OF NET ASSETS
AS OF JUNE 30, 2012

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS **\$ 15,338,892**

Amounts reported for *governmental activities* in the statement of net assets are different because:

Capital assets used in governmental activities are not financial and therefore are not reported as assets in governmental funds.

Add: Capital Assets	129,121,102
Deduct: Accumulated Depreciation	(49,315,948)

Certain tax revenues are recognized in the period for which levied than when "available." A portion of certain deferred tax revenues are not available.

Add: Property Taxes	4,155,261
Add: Earned Income Taxes	1,275,782

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Deduct: Bonds/Notes Payable	\$ (72,560,000)
Deduct: Leases Payable	(403,212)
Deduct: Unamortized Discount/Premium	(133,842)

RECONCILIATION OF THE GOVERNMENTAL FUNDS
STATEMENT OF REVENUES, EXPENDITURES, CHANGES IN FUND BALANCE
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2012**

NET CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS **\$ (1,409,263)**

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeds depreciation in the period.

Capital Outlays	\$ 1,064,658	
Less: Depreciation Expense	<u>(5,036,588)</u>	(3,971,930)

Because some property and earned income taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred tax revenues changed by this amount this year.

446,931

The governmental funds report proceeds from debt as an other financing source, while the repayment of debt principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the Statement of Activities, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of bonds and leases is as follows:

Repayment of Bond/Note Principal	\$ 4,420,000	
Refunding Bond Payment	4,830,000	
Bond/Note Proceeds	(4,945,000)	
Lease Proceeds	(415,761)	
Payment of Lease Payable	12,549	
Interest Expense	296,179	
Amortization of Deferred Refunding Loss	(41,015)	
Amortization and Acquisition of Bond Issuance Costs	(353,561)	
Amortization and Acquisition of Bond Premium/Discount	<u>1,269,641</u>	5,073,032

In the Statement of Activities, certain operating expenses-compensated absences and other post-employment benefits-are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). During this year, the total amount of the liability changed by this amount.

BALDWIN-WHITEHALL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDING JUNE 30, 2012

NOTE 1 - REPORTING ENTITY

The Baldwin-Whitehall School District is organized under Title 24 of the Pennsylvania Statutes. The School District provides educational services as authorized by State statute and/or federal guidelines.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the Baldwin-Whitehall School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The Baldwin-Whitehall School District does not have any component units.

The Allegheny Intermediate Unit was considered as a possible component unit, but was excluded based on the above criteria.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Baldwin-Whitehall School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The more significant accounting policies of the District are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

BALDWIN-WHITEHALL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDING JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Government-wide financial statements—The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental and business-type activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

Fund financial statements—During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds, if applicable, are aggregated and presented in a single column. The fiduciary funds are reported by type. A break out of all funds that are aggregated for reporting purposes is shown as supplementary information after the notes to the financial statements.

B. Measurement Focus/Basis of Accounting

Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and post-employment healthcare benefits, are recorded only when payment is due. Property taxes and interest associated with past and current fiscal periods are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period if they are collected within 60 days of the end of the current fiscal period. All other property taxes associated with past and current fiscal periods are deferred in the Governmental fund financial statements.

The District reports the following major governmental funds:

General Fund—The General Fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund.

Capital Projects Funds—The Capital Projects Funds account for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities, and procurement of equipment necessary for providing educational programs for all students within the District.

Capital Reserve Fund – The Capital Reserve Fund accounts for (1) moneys transferred during any fiscal year from appropriations made for any particular purpose which may not be needed and (2) surplus moneys in the General Fund of the treasury of the District at the end of any fiscal year. The moneys in (1) and (2) can be used only for capital improvements and for replacement of and additions to public works and improvements, and for deferred maintenance thereof, and for the purchase or the replacement of school buses, and for debt service and for no other purpose.

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. Enterprise funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

The District reports its only enterprise fund, the Food Service Fund, as major.

Food Service Fund—This fund accounts for the financial transactions related to the food service operations of the School District.

BALDWIN-WHITEHALL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDING JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Fiduciary Funds—Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, or other governments. These include agency funds. Agency funds are purely custodial and thus do not involve measurement of results of operations. Major Fund reporting does not apply to Fiduciary Funds. Accordingly, the District presents only a statement of fiduciary net assets and does not present a statement of changes in fiduciary net assets for the agency fund.

The District reports the Student Activity Funds as an agency fund. These Fiduciary Funds are used to account for net assets held in a purely custodial capacity for specific other persons, organizations or governments.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

C. Budgetary Process

The District passed an appropriated original budget for the fiscal year ending June 30, 2012 with revenues totaling \$60,095,402 and expenditures totaling \$60,095,405.

The District is required by state law to adopt an annual budget for the General Fund only. The budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles (“GAAP”).

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

Preliminary Budget: The preliminary budget for each year must be adopted (via Board vote) 90 days prior to the Primary Election, unless the District adopts a Resolution indicating that it will not raise the rate of any tax by more than its index. The Resolution must be adopted 110 days prior to the Primary Election and the District must adopt a Resolution that follows traditional budget guidelines.

A ***proposed*** version must be prepared at least 20 days before adoption; this work-in-progress budget, defined as the ***proposed preliminary budget***, must be made available for public inspection no later than 110 days prior to the Primary Election. Public notice of the intent to adopt the preliminary budget must be published no later than 10 days before adoption of the preliminary budget (100 days before Primary Election).

BALDWIN-WHITEHALL SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
YEAR ENDING JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Final Budget: The final budget for each year must be adopted (via Board vote) by June 30 of the preceding school fiscal year.

A ***proposed*** version must be prepared and adopted (via Board vote) no later than May 30 of the preceding school fiscal year (at least 30 days before adoption); this work-in-progress budget, defined as the ***proposed final budget***, must be made available for public inspection no later than June 10 of the preceding school fiscal year (20 days before adoption on June 30). Public notice of the intent to adopt the final budget must be published no later than June 20 of the preceding school fiscal year (10 days before adoption on June 30).

Note: For the adopted preliminary budget to become the proposed final budget, the school board must take action.

Once the budget is approved, it can be amended at the Function and Fund level only by approval of a majority of the members of the Board of Directors. Amendments are presented to the Board at their regular meetings. Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end as dictated by law.

Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board of Directors. All budget appropriations lapse at year-end, unless the District chooses to utilize encumbrance accounting. Encumbrances (e.g., purchase orders and contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year.

D. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition, including investments in the Pennsylvania School District Liquid Asset Fund (PSDLAF).

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments, which have a remaining term of one year or less at the time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes.

BALDWIN-WHITEHALL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDING JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

E. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables.” These amounts are offset against each other in the governmental and business-type activities columns of the statement of net assets, except for amounts due to/from other funds which are not presented in the statement of net assets.

F. Inventories

On government-wide financial statements, inventories are stated at cost using the purchase method. The purchase method means that food products, materials, and supplies are charged as expenditures when acquired. Inventory on hand at the end of the period is then recorded as an asset by offsetting the appropriate expense account. Inventories for governmental activities are not reported as of June 30, 2012 due to their immaterial balance.

On fund financial statements, inventories are stated at cost using the purchase method for enterprise funds. The inventory for Business-type Activities at June 30, 2012 is \$31,640. Inventories are not maintained in governmental funds for fund financial statement reporting.

G. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District capitalizes all purchases made out of debt service funds and maintains a capitalization threshold of \$4,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Site Improvements	15-20 years	N/A
Buildings and Improvements	10-50 years	10-50 years
Furniture and Equipment	5-20 years	5-20 years

H. Unamortized Issuance Costs/Bond Premium and Discount

In the government-wide financial statements, issuance costs are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Unamortized issuance costs are recorded as a separate line item on the Statement of Net Assets.

Bond premiums are deferred and accreted over the term of the bonds. Bond premiums are presented as an addition to the face amount of the bonds.

I. Compensated Absences/Retirement Incentives

The District has agreed to pay unused sick leave for all employees who have attained twenty years of services in PSERS and ten years of service with Baldwin-Whitehall School District. For teachers, the value of unused sick days is measured as follows:

<u>Days of Unused Sick Leave</u>	<u>Rate</u>
1-75 days	\$50/day
76-125 days	\$60/day
126-175 days	\$70/day
176-200 days	\$75/day

Payment for each unused sick day is made in June of each year; therefore, there is no existing liability for compensated absences as of June 30, 2012.

The District measured and recognized an “other post-employment benefit” (OPEB) liability in accordance with provisions of Governmental Accounting Standards Board (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pensions.* This statement provides guidance on accounting and financial reporting for “other post-employment benefits” accounted for in financial statements of plan sponsors and employers. OPEB refer to non-pension benefits provided after the termination of employment. One example of this type of benefit is healthcare insurance premiums paid by employers on behalf of former employees. Governmental entities have traditionally accounted for OPEB on a pay-as-you-go basis. The guidance in this statement rests on the assumption that OPEB should be accrued as service is provided by employees.

BALDWIN-WHITEHALL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDING JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

J. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from enterprise funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds and capital leases are recognized as a liability on the governmental fund financial statements when due.

K. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

L. Fund Balance

The GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54) effective for reporting periods after June 15, 2010. The School has adopted GASB 54 as part of its fiscal year reporting. The intention of the GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the School's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources. GASB 54 provides for two major types of fund balances, which are non-spendable and spendable. Non-spendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items and inventories.

In addition to the non-spendable fund balance, GASB 54 has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

BALDWIN-WHITEHALL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDING JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Restricted – Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.

Committed – Fund balances that contain self-imposed constraints of the government from its highest level of decision making authority, the Baldwin-Whitehall School District Board of Directors through board action to commit funds.

Assigned – Fund balances that contain self-imposed constraints of the government to be used for a particular purpose. The Board of Directors retains the authority to assign portions of the fund balance.

Unassigned – Fund balance of the general fund that is not constrained for any particular purpose.

Investment in Capital Assets, Net of Related Debt – The component of net assets that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

According to District policy, the District will strive to maintain an unassigned general fund balance of not less than three percent and not more than eight percent of the budgeted expenditures for that fiscal year.

M. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 – CASH / INVESTMENTS

Statutory Authority

School Districts are to adopt local investment policies. The local investment policy must be written, primarily emphasize the safety of principal and liquidity, and address investment diversification, yield, maturity and the quality and capability of investment management. Each District should customize its policies to meet board and administrative objectives as defined. Districts should review their investment policies and investment strategies annually.

BALDWIN-WHITEHALL SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

YEAR ENDING JUNE 30, 2012

NOTE 3 – CASH / INVESTMENTS - CONTINUED

Section 440.1(c) of the Pennsylvania School Code authorizes the types of investments school districts may have:

1. United States Treasury bills
2. Short-term obligations of the United States Government or its agencies or instrumentalities. *Short-term obligations* usually refer to investments of less than thirteen months
3. Deposits in savings accounts or time deposits or share accounts of institutions insured by:
 - a. The Federal Deposit Insurance Corporation (FDIC), or
 - b. The Federal Savings and Loan Insurance Corporation, or
 - c. The National Credit Union Share Insurance Fund to the extent that such accounts are so insured, and for any amounts above maximum, provided that approved collateral as provided by law therefore shall be pledged by the depository
4. Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities. *Full faith and credit* means the obligation is backed by the government's ability to levy taxes to repay debt. These investments include any bonds issued by the Commonwealth of Pennsylvania or any municipality or school district carrying the backing of the taxation of the governmental unit issuing the debt. Some investments of the Federal government do not have full faith and credit backing. Fannie-Mae (FNMA) and Freddy-Mach (FNMC) bonds do not. Ginnie-Mae (GNMA) bonds do have full faith and credit backing.
5. Shares of an investment company registered under the Investment Company Act of 1940 whose shares are registered under the Securities Act of 1933 provided that the following are met:
 - a. Only investments of that company are in the authorized investments for school district funds listed in the categories above, and repurchase agreements fully collateralized by such investments
 - b. The investment company is managed so as to maintain its shares as a constant net asset value in accordance with 17 CFR 270 2a-7 (relating to money market funds)
 - c. The investment company is rated in the highest category by a nationally recognized rating agency.

This classification includes pooled investments such as the Pennsylvania School District Liquid Asset Fund, Pennsylvania Local Government Investment Trust and the Pennsylvania State Treasurer's Invest Program

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2012, \$7,594,102 of the District's bank balance of \$7,844,102 was exposed to custodial credit risk as:

Uninsured and uncollateralized	\$	0
Collateralized with securities held by the pledging financial institution	\$	0
Uninsured and collateral held by the pledging bank's trust department not in the District's name	\$	7,594,102

Other Deposits

As of June 30, 2012, the District had the following other deposits in The Pennsylvania School Liquid Asset Fund (PSDLAF) which was established as common law trust, organized under laws of the Commonwealth of Pennsylvania. Shares of the fund are offered to certain Pennsylvania school districts, intermediate units, area vocational-technical schools and municipalities. The purpose of the fund is to enable such governmental units to pool their available funds for investments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended. These funds have the characteristics of open-end mutual funds and are not subject to credit risk classification. PLGIT and PSDLAF are governed by an elected board of trustees who are responsible for the overall management of the funds. The trustees are elected from the several classes of local governments participating in them. Each fund is audited annually by independent auditors. The Funds operate in a manner consistent with the SEC's Rule 2(a)7 of the Investment Company Act of 1940. The funds use amortized cost to report net assets to compute share prices. The Funds maintain net asset value of \$1 per share. Accordingly, the fair value of the position in PLGIT and PSDLAF is the same as the value of PLGIT and PSDLAF shares. The value of the funds as of June 30, 2012 is as follows:

NOTE 4 – TAXES

Property Taxes

Based upon assessed valuations provided by the County, the municipal tax collector bills and collects property taxes on behalf of the District.

The schedule for property taxes levied for 2011-2012 is as follows:

July 1, 2011	- tax levy date
Through August 31, 2011	- 2% discount period
Through October 31, 2011	- face payment period
Beginning November 1, 2011	- 5% penalty period
April 15, 2012	- lien date

The District tax rate for all purposes in 2011-2012 was 23.40 mills (\$23.40 per \$1,000 assessed valuation). Collections for the 2011-2012 year were \$31,926,154.

As of June 30, 2012, property taxes receivable by the District includes uncollected taxes assessed as of July 1, 2011 or earlier. It is estimated that 90% of all assessed taxes (including delinquencies plus accrued interest and penalties) will be collected; therefore, property taxes receivable reflect this estimate. Delinquent property tax receivable is recognized as revenue in the government-wide financial statements. Only the portion of property taxes receivable that meets the revenue recognition criteria is reported as revenue in the fund financial statements.

Income Taxes

The District levies a voted continuing tax of 0.50 percent for general operations on the income of residents. Taxpayers are required to file an annual return. The collector makes periodic contributions to the District after withholding amounts for administrative fees. Income tax receipts are credited to the general fund.

NOTE 6 – RISK MANAGEMENT

Baldwin-Whitehall is a member of the Allegheny County Health Consortium (The Consortium) for Health Insurance. This Consortium was formed in 1987 in order to purchase health benefits on behalf of participating public school districts in Allegheny County, Pennsylvania. The District pays an annual premium to the Consortium for its health and medical insurance coverage. The formation agreement of the Consortium provides that the Consortium will be self-sustaining through annually determined member premiums and will reinsure through commercial companies for excess claims of amounts as defined in the insurance contract. Additionally, during fiscal 2005, the Consortium designated a portion of the net assets for rate stabilization and catastrophic claims. The Net Assets Designated for rate stabilization was \$22,377,000 as of June 30, 2012, while the Net Assets Designated for Catastrophic Claims was \$16,783,000.

The District's agreement permits withdrawal from the Consortium only as of the last day of a fiscal year and after having given all participating entities and the Trustees written notice by April 30th of such fiscal year. If Baldwin-Whitehall were to withdraw, the District would be entitled to receive a prorata share of the net assets or would be required to reimburse the Consortium for their prorata share of any deficiency in net assets.

The Consortium fund balance attributable to Baldwin-Whitehall School District was \$1,329,795 as of June 30, 2012 (audited) and at this time Baldwin-Whitehall has no plans to withdraw from the Consortium. The financial statements of the Consortium for the year ended June 30, 2012 are on file with the Baldwin-Whitehall School District.

NOTE 7 – RETIREMENT PLANS/OTHER POSTEMPLOYMENT BENEFITS

Public School Employees' Retirement System (PSERS)

Plan Description. Baldwin-Whitehall School District contributes to the Public School Employees' Retirement System (PSERS); a Governmental cost sharing multiple employer defined benefit pension plan administered by the Public School Employees' Retirement System Board of Trustees under the authority of the Public School Employees' retirement Code (Act No. 96 of October 2, 1975, as amended) (24 Pa. C.S. 8101-8535). PSERS provides retirement and disability, legislatively mandated ad hoc cost-of-living adjustments, and healthcare insurance premium assistance to qualifying annuitants. The Public School Employees' Retirement System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Diane J. Wert, Office of Financial Management, Public School Employees' Retirement System, 5 N 5th Street, Harrisburg, PA 17101-1905. The publication is also available on the PSERS website at <http://www.psers.state.pa.us/publications/cafr/index.htm>.

Funding Policy. Active members who joined the system prior to July 22, 1983, are required to contribute 5.25% (Membership Class TC) or at 6.50% (Membership Class TD) of the qualifying compensation. Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class TC) or at 7.50% (Membership Class TD) of the member's qualifying compensation. Members who joined the System after June 30, 2001, but before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.50% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.30% and 12.30%. The Baldwin-Whitehall School District is required to contribute at an actuarially determined rate. The rates applied to annual covered payroll were 8.65% at June 30, 2012, 5.64% at June 30, 2011 and 4.76% at June 30, 2010. The 8.65% at June 30, 2012 is composed of a pension contribution rate of 8.00% for pension benefits and 0.65% for healthcare insurance premium assistance.

General Obligation Bonds, Refunding Series of 2010

On June 21, 2012, the Baldwin-Whitehall School District issued \$4,945,000 in General Obligation Bond, Refunding Series of 2005. Total interest and principal payments over the scheduled life of the Bond is \$5,310,926, with interest rates between 1.00% and 2.25%. The bonds are scheduled to mature on September 15, 2022.

The proceeds of the bond were used to currently refund the School District’s General Obligation Bonds, Series of 2005 and to pay the cost of issuing the bonds. As a result, the 2005 Bonds are considered to be defeased, and the liability for these bonds has been removed from the balance of bonds payable. The total interest and principal payments of the defeased amounts to be paid out over the life of the bond issue at the time of refunding was \$5,650,303, with interest rates between 2.80% and 4.38%. The bonds were originally scheduled to mature on September 15, 2022.

NOTE 10 – CONTINGENCIES

A. Litigation

The District is potentially liable for any expenditure that may be disallowed pursuant to the terms of grant programs. Management is not aware of any material items of noncompliance, which would result in the disallowance of program expenditures.

B. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2012.

NOTE 11 – OTHER POST-EMPLOYMENT BENEFITS

Post-retirement benefits

From an accrual accounting perspective, the cost of post-employment healthcare benefits, like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. In adopting the requirements of GASB No. 45 during the year ended June 30, 2012, the District recognizes the cost of post-employment healthcare in the year when the employee services are received, reports the accumulated liability from prior years, and provides information useful in assessing potential demands on the District's future cash flows. Recognition of the liability accumulated from prior years will be phased in over five years, commencing with the 2009 liability.

Plan description

The District provides post-retirement benefits for certain employees for current and future health, pharmacy, dental and vision insurance benefit expenses through a single-employer defined benefit plan. A bi-annual actuarial valuation is made to determine whether the contributions are sufficient to meet the plan obligations. The latest actuarial valuation was made July 1, 2010. The post-retirement plan does not issue stand-alone financial reports.

The contribution requirements of plan members and the District are established and may be amended by the District. The District determines the required contribution using the Projected Unit Credit Method.

Membership in the plan consisted of the following at July 1, 2010, the date of the last actuarial valuation.

The District's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The actuarial accrued liability as of July 1, 2010 is estimated to be \$2,587,416. The District's contributions represent payments made for premiums for insured individuals.

Schedule of Funding Progress (\$000's)						
Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	Unfunded AAL	Funded Ratio	Covered Payroll (Total)	UAAL as a Percentage of Payroll
7/1/2010	\$ 0	\$ 2,587	\$ 2,587	0%	TBD	TBD

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation was as follows:

GASB45 Schedule of Employer Contributions (\$000's)			
Fiscal Year Ending	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2012	\$ 618	117.16%	\$ (267)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

NOTE 11 – OTHER POST-EMPLOYMENT BENEFITS – CONTINUED

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuations and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The annual OPEB cost was determined as part of the actuarial valuation. Additional information as of the last actuarial valuations follows:

NOTES TO THE SCHEDULE OF

EXPENDITURES OF FEDERAL AWARDS

NOTE 1 - BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the Baldwin-Whitehall School District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2 - BUDGETARY DATA

The District passed and had approved by the appropriate agency, budgets for the fiscal year ending June 30, 2012 for all federal programs.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
Baldwin-Whitehall School District
4900 Curry Road
Pittsburgh, PA 15236

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Baldwin-Whitehall School District, as of and for the year ended June 30, 2012, which collectively comprise Baldwin-Whitehall School District's basic financial statements and have issued our report thereon dated October 25, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Baldwin-Whitehall School District, is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Baldwin-Whitehall School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Baldwin-Whitehall School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Baldwin-Whitehall School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies, or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider items 2012-1 through 2012-6 described in the accompanying schedule of findings and questioned costs to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We did not identify any significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Baldwin-Whitehall School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of Baldwin-Whitehall School District in a separate communication dated November 5, 2012.

Baldwin-Whitehall School District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Baldwin-Whitehall School District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, Board of Directors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL
EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Directors
Baldwin-Whitehall School District
4900 Curry Road
Pittsburgh, Pennsylvania 15236

Compliance

We have audited Baldwin-Whitehall School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Baldwin-Whitehall School District's major federal programs for the year ended June 30, 2012. Baldwin-Whitehall School District's major federal programs are identified in the summary of the auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Baldwin-Whitehall School District's management. Our responsibility is to express an opinion on Baldwin-Whitehall School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Baldwin-Whitehall School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Baldwin-Whitehall School District's compliance with those requirements.

In our opinion, Baldwin-Whitehall School District, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. The results of our auditing procedures did not disclose instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133.

Internal Control over Compliance

Management of Baldwin-Whitehall School District, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Baldwin-Whitehall School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing

procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Baldwin-Whitehall School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did identify two deficiencies in internal control over compliance that we consider to be significant deficiencies, as defined above and as noted below in items 2012-7 and 2012-8.

Baldwin-Whitehall School District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Baldwin-Whitehall School District's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, Board of Directors Council, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

BALDWIN-WHITEHALL SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2012

A. SUMMARY OF AUDIT RESULTS

1. The auditor's report expresses an unqualified opinion on the financial statements of the Baldwin-Whitehall School District.
2. Six significant deficiencies disclosed during the audit of the financial statements are reported in this schedule. All six of the conditions are reported as material weaknesses.
3. No instances of noncompliance and other matters material to the financial statements of the Baldwin-Whitehall School District, which is required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. Two deficiencies were identified in internal control over major federal award programs and were disclosed during the audit. No significant deficiencies in internal control over major federal award programs are reported as material weaknesses.
5. The auditor's report on compliance for the major federal award programs for the Baldwin-Whitehall School District expresses an unqualified opinion.
6. Audit findings that are required to be reported in accordance with Section 510(a) of OMB Circular A-133 are reported in Part C of this Schedule.
7. The programs tested as major programs include:

National School Lunch Program Cluster – CFDA 10.555, 10.553
IDEA – CFDA 84.027
8. The threshold for distinguishing Types A and B programs was \$300,000.
9. Baldwin-Whitehall School District qualified to be a high-risk auditee.

B. FINDINGS - FINANCIAL STATEMENTS AUDIT

MATERIAL WEAKNESSES

2012-1 Preparation of Financial Statements

Condition: Under the auditing standard, "*Communicating Internal Control Related Matters Identified in an Audit*" which was effective for the year ending June 30, 2001, emphasis is placed on an organization's ability to produce its finance statements in accordance with generally accepted accounting principles applicable to governmental entities ("GAAP").

BALDWIN-WHITEHALL SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2012

B. FINDINGS - FINANCIAL STATEMENTS AUDIT – CONTINUED

During the audit process, we proposed 46 adjustments to Baldwin-Whitehall School District's financial statements. Adjustments were required to: 1) reclass various accounts; 2) properly record expenditures to the correct period; 3) propose year-end accruals; and 4) other items to bring the financial statements in accordance with GAAP.

Criteria: The auditing standards that must be applied require that more emphasis has been placed on determining an entity's ability to prepare their own financial statements, including the posting of all adjustments necessary to present GAAP financials, and evaluating the need for all necessary financial statement disclosures.

Effect: Audit adjustments were required to be recorded to ensure that the financial statements were prepared in accordance with GAAP.

2012-2 Balance Sheet Account Reconciliations

Condition: During our testing of the General Ledger, we noted that certain payroll liability account values were not properly reconciled.

Criteria: We noted during preliminary and final testing that many of the payroll liability accounts were not being properly reconciled. There appeared to be a general breakdown between the General Ledger and the payroll system as consistently incorrect journal entries were being prepared and posted.

Condition: Accounts Payable was not properly reconciled.

Criteria: We noted that Accounts Payable had not been properly reconciled and thus did not reflect the proper balance as of the year end. We recommend the District examine and reconcile Accounts Payable on a monthly basis. In doing so, the District should be able to identify all unpaid payables and reconcile them to the General Ledger.

Effect: Possible effects of the above finding could be:

- Management could be basing decisions on incorrect, unreliable data
- Financial statements could be materially misstated
- Material expenditures could be recorded in incorrect years
- Budgets could be created and based on materially misstated information
- Payments could be incorrect, untimely, not able to be supported
- Late and inaccurate payments relating to taxes / levy's / bankruptcy's could result in IRS fines and penalties

BALDWIN-WHITEHALL SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS

YEAR ENDED JUNE 30, 2012

B. FINDINGS - FINANCIAL STATEMENTS AUDIT – CONTINUED

2011-3 Middle School Activity Fund Management

Condition: During our testing of Activity Fund receipts and disbursements, we noted that, in certain instances, student signatures were not present or vouchers were not properly filled out.

Criteria: The PASBO “Student Activity Funds Guide” states, “*Student Activity Funds are generally earned by the students and used for student activities. The monies should be designated for student purposes and restricted to use for those students currently in school.*” In order to ensure that all transactions that run through the District’s Activity Funds are appropriate, we recommend that at least one student signature be present on all receipt and expenditure vouchers. Transactions should be for student activities only. Additionally, the employee handling the financial reporting and cash receipting is also processing checks for payment which creates a lack of segregation of duties. We recommend that the Board adopt policies that coincide with the “Student Activity Funds Guide” in order to ensure appropriate accounting of the various Activity Funds in the District as well as segregating the financial duties related to the financial processing.

Effect: The District could have inappropriate transactions clearing through the Activity Funds.

2012-4 Inventory Fixed Assets

Condition: We noted during our audit that no recent physical inventory of fixed assets has been performed and there were certain items included on the fixed asset ledger that the District had disposed of in previous years.

Criteria: The District has an investment of approximately \$17 million in equipment items and we recommend that controls be strengthened in this area. Most fixed assets, except items like computers and projectors, are never physically inventoried. We recommend that periodic physical counts of property, especially removable equipment items, be taken and compared to the detailed fixed asset records.

Effect: Fixed assets could be misstated on the financial statements.

2012-5 Service Organization Control Report

Condition: The District was not able to obtain a Service Organization Report from the earned income tax collector.

Criteria: The American Institute of CPAs recently released a new series of reporting options, called SERVICE ORGANIZATION CONTROL REPORTSSM (SOC), that enables CPAs to provide assurance on internal controls over subject matter other than financial reporting while filling the marketplace’s need to demonstrate reliability and mitigation of risk. The earned income tax

B. FINDINGS - FINANCIAL STATEMENTS AUDIT – CONTINUED

collector should have the necessary procedures performed over their internal controls in order to obtain a SOC report.

Effect: Poor internal controls could result in an increased risk of material misstatements and/or a misappropriation of District assets.

2012-6 Disbursement Approval

Condition: A disbursement for approximately \$388,000 was not documented as approved in the board minutes.

Criteria: During our testing of cash disbursements, we noted that a single disbursement for approximately \$388,000 was not documented as approved in the board minutes. While it is possible that the board discussed this disbursement, due to its large dollar amount, we recommend that disbursements of this magnitude either be specifically approved or approved with the list of normal disbursements and documented in the board minutes.

Effect: District assets could be disbursed without board approval.

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD AUDIT

SIGNIFICANT DEFICIENCIES

2012-7 Free and Reduced Lunch Applications

Condition: Free and reduced lunch applications did not have the proper approving signatures.

Criteria: During our examination of free and reduced lunch applications we noted that the District did not have the proper signatures approving the status of each application. The District should designate one individual as the determination officer to review and sign all applications in order to ensure the information is correct and the status of the applicant(s) is proper.

Effect: Students could be mis-classified as paid, free or reduced which could result in the District's state and federal food subsidies being incorrect.

2012-8 Free and Reduce Verifications

Condition: The verifications of free and reduced lunch applications were not properly approved and signed.

Criteria: The District is required to verify a certain percentage of the free and reduced lunch applications. Upon verifying the application, the verification should have three signatures:

determination officer, confirming officer and employee. It is allowable that the employee can be the same person as either the determination officer or the confirming officer. We noted that the verifications did not have the proper signatures. Therefore, we encourage the District to set up a procedure whereby designated individuals are reviewing and signing the verification of applications.

Effect: Verifications could be inaccurate which result in the District being out of compliance with governmental regulations which could affect the receiving of food subsidies.

BALDWIN-WHITEHALL SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

YEAR ENDED JUNE 30, 2012

A. PRIOR YEAR FINDINGS – FINANCIAL STATEMENTS AUDIT

MATERIAL WEAKNESSES

2011-1 Preparation of Financial Statements

Condition: Under the auditing standard, “*Communicating Internal Control Related Matters Identified in an Audit*” which was effective for the year ending June 30, 2001, emphasis is placed on an organization’s ability to produce its finance statements in accordance with generally accepted accounting principles applicable to governmental entities (“GAAP”).

During the audit process, several significant adjustments were made to the Baldwin-Whitehall School District’s records. Adjustments were required to: 1) reclass various accounts; 2) properly record expenditures to the correct period; 3) student activity and foods service fund accounts; and 4) several other categories.

Criteria: The auditing standards that must be applied require that more emphasis has been placed on determining an entity’s ability to prepare their own financial statements, including the posting of all adjustments necessary to present GAAP financials, and evaluating the need for all necessary financial statement disclosures.

Current Status: This continues as a finding in the current year audit.

2011-2 Balance Sheet Account Reconciliations

Condition: During our testing of the General Ledger, we noted that certain payroll liability account values were not properly reconciled.

Criteria: We noted during preliminary and final testing that many of the payroll liability accounts were not being properly reconciled. There appeared to be a general breakdown between the General Ledger and the payroll system as consistently incorrect journal entries were being prepared and posted.

Condition: Reconciliations were not properly performed for the General Fund cash, Cafeteria Fund cash and Activity Fund cash accounts.

Criteria: As we began testing the cash accounts of the funds mentioned above, we determined that they had not been properly reconciled for much of the fiscal year. There were various entries that were not made to the General Ledger and miscalculations on the reconciliation. Due to the fact that cash accounts typically include extensive activity and are areas of high risk, we recommend the District fully reconcile each cash account on a monthly basis and ensure that all appropriate entries have been made to the General Ledger.

BALDWIN-WHITEHALL SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
YEAR ENDED JUNE 30, 2012

A. PRIOR YEAR FINDINGS – FINANCIAL STATEMENTS AUDIT - CONTINUED

Condition: Accounts Payable was not properly reconciled.

Criteria: We noted that Accounts Payable had not been properly reconciled and thus did not reflect the proper balance as of the year end. We recommend the District examine and reconcile Accounts Payable on a monthly basis. In doing so, the District should be able to identify all unpaid payables and reconcile them to the General Ledger.

Current Status: While we have taken measures to improve our reconciliation process, we still have some improvements to make in this regard. This finding will continue to be cited.

2011-3 Activity Fund Management

Condition: During our testing of Activity Fund receipts and disbursements, we noted that, in certain instances, student signatures were not present.

Criteria: The PASBO “Student Activity Funds Guide” states, “*Student Activity Funds are generally earned by the students and used for student activities. The monies should be designated for student purposes and restricted to use for those students currently in school.*” In order to ensure that all transactions that run through the District’s Activity Funds are appropriate, we recommend that at least one student signature be present on all receipt and expenditure vouchers. Additionally, the employee handling the financial reporting and cash receipting is also processing checks for payment which creates a lack of segregation of duties. We recommend that the Board adopt policies that coincide with the “Student Activity Funds Guide” in order to ensure appropriate accounting of the various Activity Funds in the District as well as segregating the financial duties related to the financial processing.

Current Status: This continues as a finding for the Middle School Activity Fund.

2011-4 Inventory Fixed Assets

Condition: We noted during our audit that no recent physical inventory of fixed assets has been performed and there were certain items included on the fixed asset ledger that the District had disposed of in previous years.

Criteria: The District has an investment of approximately \$17 million in equipment items and we recommend that controls be strengthened in this area. Most fixed assets, except items like computers and projectors, are never physically inventoried. We recommend that periodic physical counts of property, especially removable equipment items, be taken and compared to the detailed fixed asset records.

Current Status: This continues as a finding.

SIGNIFICANT DEFICIENCIES

2011-5 Investigate Old Outstanding Checks and Other Old Uncleared Reconciling Items

Condition: We noted that many old outstanding checks and other longtime outstanding reconciling items, some exceeding one year, are being carried on monthly cash reconciliations.

Criteria: We recommend that checks and other outstanding reconciling items that are over one year old be investigated. We suggest that management establish a formal, written policy concerning uncashed checks based on current State escheat laws. Such a policy should specify aging milestones with required actions. For example, this policy might specify that when checks are past 60 days old, the payee should be contacted. After 90 days, the checks should be moved to a suspense account or written off.

Current Status: The District has instituted procedures by which to investigate and clear old or stale outstanding checks.

2011-6 Cafeteria Fund Monitoring and Lack of Reconciliations

Condition: During our audit, we noted that the Board of Directors was not provided with accurate and timely information regarding the performance of the Cafeteria Fund throughout the 2010-2011 fiscal year. There were no reconciliations done between the District's general ledger and the system used by the contracted food service provider.

Criteria: We recommend that the client reconcile the aforementioned systems and provide the Board with a Statement of Net Assets, a Statement of Revenues, Expenses, and Changes in Fund Net Assets as well as a Cash Flow statement for the Cafeteria Fund on a monthly basis. These financial reports should be fully reconciled with the bank statements as well as compared to the contracted service company's financial information. These statements should be signed and dated by a preparer and reviewer.

The above reconciliation would also show the Board on a monthly basis (as seen in the Statement of Net Assets), the total amount that the District's Cafeteria Fund owes the General Fund.

The District should ensure that all months are accounted for with regards to payments to the contracted service provider.

Current Status: The District has instituted procedures to provide more accurate information to the Board with regards to the cafeteria fund.

2011-7 Controls Over Athletic Fund Start-Up Cash

Condition: Historically, the General Fund issues a check to the Athletic Fund for start-up cash at the beginning of the year and, subsequently, is reimbursed the same amount at the end of the school year from the Athletic Fund. During our audit, we were unable to account for the reimbursement from the Athletic Fund.

Criteria: We recommend the District set up stronger controls over the issuance and reimbursement of start-up cash between the General Fund and the Athletic Fund.

Current Status: Stronger controls have been implemented in order for us to account for athletic start-up cash.

A. FINDINGS - FINANCIAL STATEMENTS AUDIT

MATERIAL WEAKNESSES

2012-1 Preparation of Financial Statements

Criteria: The auditing standards that must be applied require that more emphasis has been placed on determining an entity's ability to prepare their own financial statements, including the posting of all adjustments necessary to present GAAP financials, and evaluating the need for all necessary financial statement disclosures.

Action Taken: The District understands and takes responsibility for the financial statement preparation and the internal controls within the Organization. We firmly believe that all District employees have the responsibility to safeguard the assets of the District and stronger controls must be adhered to in order to address the findings within this report. Current and on-going evaluations are necessary to increase effective internal controls and to enhance the reporting standards and financial statement preparation in accordance with GAAP.

2012-2 Balance Sheet Account Reconciliations

Criteria: We noted during preliminary and final testing that many of the payroll liability accounts were not being properly reconciled. There appeared to be a general breakdown between the General Ledger and the payroll system as consistently incorrect journal entries were being prepared and posted.

Criteria: We noted that Accounts Payable had not been properly reconciled and thus did not reflect the proper balance as of the year end. We recommend the District examine and reconcile Accounts Payable on a monthly basis. In doing so, the District should be able to identify all unpaid payables and reconcile them to the General Ledger.

Action Taken: The District agrees and has implemented a review on a monthly basis to reconcile all Accounts Payable. As for the payroll system, the District has accepted the Auditor's recommendation to establish a stand-alone Payroll Fund which will eliminate the previous inconsistencies.

2012-3 Middle School Activity Fund Management

Criteria: The PASBO "Student Activity Funds Guide" states, "*Student Activity Funds are generally earned by the students and used for student activities. The monies should be designated for student purposes and restricted to use for those students currently in school.*" In order to ensure that all transactions that run through the District's Activity Funds are appropriate, we recommend that at least one student signature be present on all receipt and expenditure vouchers. Transactions should be for student activities only. Additionally, the employee handling the financial reporting and cash receipting is also processing checks for payment which creates a lack of segregation of

duties. We recommend that the Board adopt policies that coincide with the “Student Activity Funds Guide” in order to ensure appropriate accounting of the various Activity Funds in the District as well as segregating the financial duties related to the financial processing.

Action Taken: We have developed appropriate procedures that ensure that all appropriate signatures are in place according to the Student Activity Funds Accounting Manual and we have communicated to the Middle School Administration the need for a student signature on all transactions. We have also segregated the duties of the employees to ensure that receipts and reconciliation are separate from disbursements.

2012-4 Inventory Fixed Assets

Criteria: The District has an investment of approximately \$17 million in equipment items and we recommend that controls be strengthened in this area. Most fixed assets, except items like computers and projectors, are never physically inventoried. We recommend that periodic physical counts of property, especially removable equipment items, be taken and compared to the detailed fixed asset records.

Action Taken: We continue to evaluate the process of a physical inventory of the entire District fixed assets to strengthen controls over the safeguarding and accounting of these assets.

2012-5 Service Organization Control Report

Criteria: The American Institute of CPAs recently released a new series of reporting options, called SERVICE ORGANIZATION CONTROL REPORTSSM (SOC), that enables CPAs to provide assurance on internal controls over subject matter other than financial reporting while filling the marketplace’s need to demonstrate reliability and mitigation of risk. The earned income tax collector should have the necessary procedures performed over their internal controls in order to obtain a SOC report.

Action Taken: The District understands the importance of obtaining SOC reports from service organizations and will continue to inquire of the appropriate entities to ensure they obtain the proper reports.

2012-6 Disbursement Approval

Criteria: During our testing of cash disbursements, we noted that a single disbursement for approximately \$388,000 was not documented as approved in the board minutes. While it is possible that the board discussed this disbursement, due to its large dollar amount, we recommend that disbursements of this magnitude either be specifically approved or approved with the list of normal disbursements and documented in the board minutes.

Action Taken: We agree that such an occurrence did take place; however, the inclusion into the Board Minutes was an oversight. This amount was payment for a real estate tax appeal that was discussed extensively with the Board and Solicitor.

B. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD AUDIT

SIGNIFICANT DEFICIENCIES

2012-7 Free and Reduced Lunch Applications

Criteria: During our examination of free and reduced lunch applications we noted that the District did not have the proper signatures approving the status of each application. The District should designate one individual as the determination officer to review and sign all applications in order to ensure the information is correct and the status of the applicant(s) is proper.

Action Taken: Effective with the review of the applications for the 2012-13 school year, all applications are being signed by the Food Service Manager and a copy of the letter of determination is being attached to the application.

2012-8 Free and Reduced Verifications

Criteria: The District is required to verify a certain percentage of the free and reduced lunch applications. Upon verifying the application, the verification should have three signatures: determination officer, confirming officer and employee. It is allowable that the employee can be the same person as either the determination officer or the confirming officer. We noted that the verifications did not have the proper signatures. Therefore, we encourage the District to set up a procedure whereby designated individuals are reviewing and signing the verification of applications.

Action Taken: Procedures are being implemented to ensure that prior to the completion of the verification process on November 15 of any given year the applications selected for verification will be reviewing and signed by the determining officer, the employee and the confirming officer.
