

STAFF At Home Symptom Screener

As part of the BWSD Back to Better health and safety plan, all employees are asked to use the symptom screening tool below prior to coming to work. This tool is based on guidance from the PA Department of Health and the PA Department of Education. In addition to this Home Screener, employees are still required to complete the check in Google Form at the start of their day.

Group A Symptoms

Fever (100.4 or higher)
Cough
Shortness of Breath
Difficulty Breathing
New Loss of Taste
New Loss of Smell

Group B Symptoms

Chills
Muscle Pain
Headache
Sore Throat
Nausea or Vomiting
Diarrhea
Fatigue
Congestion or Runny Nose

Are you exhibiting one (1) or more of the Group A Symptoms?

If Yes, Stay Home and contact the Pandemic Coordinator and your Immediate Supervisor

Are you exhibiting two (2) or more of the Group B Symptoms?

If Yes, Stay Home and contact the Pandemic Coordinator and your Immediate Supervisor

Are you taking symptom reducing medication?

If Yes, Stay Home and contact the Pandemic Coordinator and your Immediate Supervisor

Have you tested positive for COVID-19, been exposed to someone with COVID-19 symptoms or to someone with a confirmed or probably case of COVID-19?

If Yes, Stay Home and contact the Pandemic Coordinator and your Immediate Supervisor
